BRUNO BUENO

Bruno Bernardo Rossigneux de Oliveira Bueno

brunobernardobueno@gmail.com · +47 413 24 823

I have a strong safety mindset and perform well in physically and mentally demanding environments.

Dedicated, fast learner, always focused on improving.

Comfortable working under pressure and following procedures. Looking for an opportunity to learn and grow in an industry I'm fascinated by.

ROUSTABOUT / DECK OPERATOR · CANDIDATE

WORK EXPERIENCE

NOV 2023 – MAY 2026 · FULL-TIME

Software Developer

Proweb AS (Webson) · Larvik, Norway

Structured problem-solving, disciplined with procedures, written documentation and team communication. Strong computer literacy, quick to adapt to new control systems and digital tools.

FEB 2023 – SEP 2023 · INTERNSHIP

Software Developer

SASTECH AS · Larvik, Norway

JAN 2017 – AUG 2024 · 1,000+ HOURS IN OPEN-WATER OPERATIONS

Dive Operations | Instructor & Team Lead

Multiple dive centres · Norway, Philippines, Mexico, Brazil, Honduras

- Team leadership under pressure: briefings, risk assessments, strict pre-operation checks, buddy-check procedures, and accountability for the group's safety.
- Apeks & Aqualung certified regulator service technician. Precision mechanical work on high-pressure life-support equipment.
- Emergency First Response (first aid and CPR) and Oxygen Provider instructor.
- Specialty instructor in Deep, Nitrox, Navigation and Night diving.
- Operated in demanding sea conditions in Rio (Brazil), Puerto Escondido (Mexico) and Norway (Sandefjord, Stavern, Lofoten): low visibility and strong coastal currents, shore entries through heavy Pacific surf, and Arctic cold-water operations requiring continuous risk assessment.
- Wall dives along coral drop-offs deeper than 100 metres in the Caribbean (Roatán) and the Philippines (Malapascua). Strict depth and gas management, with constant awareness of decompression limits.

EDUCATION

MAY 2022 – FEB 2023

Full Stack Web Developer Course

GET Academy, Larvik

JAN 2017 – APR 2017

PADI Open Water Scuba Instructor Course and Internship

Roatan Dive Center, Honduras

2012

High School

Colégio pH, Rio de Janeiro, Brazil

PROJECTS & SELF-STUDY

- Built my own training simulators to prepare for offshore work: a drilling fundamentals simulator, overhead-crane rig (G4), fixed-mounted hydraulic crane simulator (G20) and rigging route planner.

See these projects in detail at brunobbueno.com
