BRUNO BUENO

Bruno Bernardo Rossigneux de Oliveira Bueno

brunobernardobueno@gmail.com · +47 413 24 823

I have a strong safety mindset and perform well in physically and mentally demanding environments.

Dedicated, fast learner, always focused on improving.

Comfortable working under pressure and following procedures — Looking for an opportunity to learn and grow in an industry that I'm fascinated about.

OFFSHORE CERTIFICATIONS

SAFETY & EMERGENCY

- **GSK — Basic Safety Course Offshore (RSS-20756, valid 03/2030)**
- **Offshore Medical Certificate (valid 03/2028)**

LIFTING & RIGGING

- **G11 — Lifting Equipment (Løfteredskap)**
- **NOG 113 / NS 9610 — Fall Protection Offshore**
- **Rigger Course (P-2.4 / P-4.4)**
- **G4 — Bridge and Overhead Crane**
- **G20 — Hydraulic Crane (scheduled 15.05.2026)**
- **Truck Operator T1 / T2 / T3 / T4**

ADDITIONAL TRAINING

- **IWCF Level 1 — Drilling Fundamentals**
- **WOCRM — Well Operations Crew Resource Management**
- **Rig pass - IADC**
- **Well Control Awareness Training — IADC**

Certificates available on request.

ROUSTABOUT / DECK OPERATOR

WORK EXPERIENCE

NOV 2023 – MAY 2026 · FULL-TIME

Software Developer

Proweb AS (Webson) · Larvik, Norway

Structured problem-solving, disciplined with procedures, written documentation and team communication. Strong computer literacy. I adapt quickly to new control systems and digital tools.

FEB 2023 – SEP 2023 · INTERNSHIP

Software Developer

SASTECH AS · Larvik, Norway

JAN 2017 – JUL 2023 · 1,000+ HOURS IN OPEN-WATER OPERATIONS

Dive Operations — Instructor & Team Lead

Multiple dive centres · Norway, Philippines, Mexico, Brazil, Honduras

- Operated in low-visibility, high-current coastal conditions off Rio (Brasil), adapting to dynamic environments and making safety-critical decisions to ensure operational integrity and team safety.
- Deep wall dives on coral drop-offs deeper than 100 metres in the Caribbean (Roatán) and Philippines (Malapascua) — strict depth and gas-management discipline, constant awareness of decompression limits.
- Operated daily in some of the roughest sea conditions on the Pacific coast (Puerto Escondido) — beach launches through heavy surf and strong currents.
- Arctic and cold-water operations in Norway (Sandefjord, Stavern, Lofoten) — demanding weather, poor visibility, and continuous risk assessment.
- Team leadership under pressure — briefings, risk assessments, strict pre-operation checks, buddy-check protocols, and accountability for group safety.
- Emergency first response instructor and Oxygen provider.

EDUCATION

MAY 2022 – FEB 2023

Full Stack Web Developer Course

GET Academy, Larvik

JAN 2017 – APRIL 2017

PADI Open Water Scuba Instructor Course and Internship

Roatan Dive Center, Honduras

2012

High School

Colégio pH, Rio de Janeiro, Brasil

PROJECTS & SELF-STUDY

- Built training simulators to support my own offshore preparation — overhead-crane rig, drilling operations trainer, and rigging route planner.
- Designed and built an autonomous AI pipeline that curates offshore domain knowledge (NORSOK, IWCF, IADC) into a structured vault, then generates study guides, quizzes, and exams.
